

Website Content Contributors

Position Description:

Provide content to the website relevant to the ministries and programs with which you are involved, or other content that you recognize as needed, or that would add value to the website.

Needed types of content primarily include broad descriptions of ministries and programs, activity updates (pre-event descriptions, graphics, announcements, and post-event reports and photos), teaching and evangelistic materials, and calendar entries and maintenance.

Content may be uploaded directly to the website, or given to Jeff Essic, Karen Essic, Julie Hommell, or others via email or in person, all depending upon the content being contributed, the web structure that's been established for this particular type of content, and the contributor's capability. In other words, whether or not you will be adding content directly on the website or giving it to someone else to add depends on several factors, but we will work closely with you to make sure it gets done.

Qualifications:

- Closely involved and participate in the planning and activities of one or more existing ministries and programs.
- Cognizant of what represents appropriate content for a public church website.
- Willing to learn or have existing skills with blogging, uploading photos, making calendar entries (platforms TBD).
- Responsible, trustworthy, and willing to make a long-term commitment to provide information on a regular basis.

Responsibilities:

- Follow through on commitments to contribute online.
- Ensure that activities are adequately documented and represented.

Ministry Deacon Contact:

Jeff Essic

Time Commitment:

Varies by ministry and activity
